

New Product Release

EOS Power India Private Ltd Announces the Release of the New M (W) LT300 Open Frame AC/DC Series

Mumbai, India, April 5th 2012— EOS Power Private Ltd, the leading designer, manufacturer and seller of high efficiency power supplies and value added power solutions, announced today that it has released its new M (W) LT300 Series of Medical and Commercial Open Frame AC/DC products. The M (W) LT300 Series is packaged in a 3 x 5 Inch footprint and has a host of Class leading specifications without the premium cost.

The New M (W) LT300 Series of open frame products add to the already impressive line-up of new product releases from Eos Power recently. By maintaining the standard 3 x 5 inch footprint the customer can change power levels of EOS product without changing the footprint which would require an expensive mechanical re-design. The New 300 watt open frame series is available as a Medical and Commercial version with Class 1 and Class 2 options. It has convection cooled ratings of 200 watts, efficiency levels of 90% and no load power consumption levels of 0.8 watts maximum at 230VAC input levels.

The New M (W) LT300 Series of products carry EN60601 3rd Edition and EN60950 2nd edition approvals respectively. All EOS products are produced in the EOS Power India manufacturing facility which has received numerous Quality and Manufacturing awards from noted bodies such as Dun & Bradstreet, Elcina & Frost & Sullivan.

The M(W)LT300 Series are available to order today from our Global distribution partners with samples available free of charge for registered business opportunities. The M(W)LT300 series is a further evolution of the EOS brand of high technology power solutions.
