

EOS POWER ACHIEVES ISO 9001:2015 CERTIFICATION

EOS Power is privileged to announce our successful transition from ISO 9001:2008 to the newly-revised standard, ISO 9001:2015.

EOS power has received certification under the ISO 9001:2015, Quality management standard nearly two years before the deadline to do so and became one of less than 30 companies to achieve the certification thus far in India.

The certification was granted by TÜV Rheinland India, a subsidiary of TÜV Rheinland Group, Germany.

Being one of the first EMS companies in India to achieve this new standard demonstrates EOS Power's commitment to adhere to high quality standards while continuously improving our products and services as well as our internal processes.

“Successfully transitioning to the new ISO 9001:2015 standard is a huge achievement for all involved and will help to position EOS Power as global leader in the industry” says Mr. Vijay Gujarathi, COO and Director.
