

## EU REACH SVHC-191 declaration

Dear Customers:

This declaration concerns European Union's REACH regulation No.1907/2006 of 18 December 2006. REACH regulation is on Registration, Evaluation, Authorization and Restriction of Chemicals. It entered into force on 1<sup>st</sup> June 2007 to streamline and improve the former legislative framework on chemicals of the European Union (EU). REACH places greater responsibility on industry to manage the risks that chemicals may pose to the health and the environment.

EOS Power India Pvt. Ltd. has thoroughly reviewed the requirements of the REACH Directive, and the guidance documents ( <http://echa.europa.eu/web/guest/support/guidance-on-reach-and-clp-implementation> ) released by the European Chemicals Agency to date on implementation of this regulation. EOS Power India Pvt. Ltd. fulfills the role of an Article Supplier (see definition below). As such we have an obligation to report the presence of any Substances of Very High Concern (SVHC) in a concentration above 0.1% (w/w) in articles which we import, or distribute in the EU.

Regarding No. 3 the "candidate list" was published with date 28 October 2008, last amended 27 June 2018 and has currently 191 entries.

Some of EOS products contain Lead\*(Pb) [CAS # 7439-92-1; EC # 231-100-4] in a concentration above 0.1 % w/w.  
\*Lead in Copper Alloy containing up to 4% (40000 mg/kg) - Lead by weight is exempted from the requirements of Article 4(1) of 2011/65/EU, RoHS2 directive, Annex III, Cl.No.6(C)

Following the review and based on the reports from sampled suppliers, it was concluded that none of our products intentionally releases substances to the environment and no exposure to humans or the environment during normal or reasonably foreseeable conditions of use including disposal, therefore According to Article 7(3), notification is not required for EOS Power to 'Register substances'.

The sum of each unique construction material in our articles imported into the E.U. is also less than one tonne per year. Given those conditions, our products are exempt from REACH pre-registration and later registration activities.

<sup>1</sup> Candidate List: 191 (last updated: 27 June 2018)

ISSUED: September 29, 2018

Definitions:

Article Supplier: An article supplier is a company which produces, imports, or distributes articles and/or places them on the EU market

Article: Article means an object which during production is given a special shape, surface or design which determines its function to a greater degree than does its chemical composition.
