

ROHS Compliance Statement

Directive 2011/65/EU – ROHS recast.

This document certifies that the power supplies manufactured by EOS are in compliance with Directive 2011/65/EU of The European Parliament and of The Council of 8 June 2011 on The Restriction of the use of certain Hazardous Substances in Electrical And Electronic Equipment (RoHS Recast Directive). These products are deemed to be compliant in accord with the maximum concentration values issued by the European Union Technical Adaptation Committee (TAC).

Certain components of the products are exempted under Annex III of the Directive 2011/65/EU. The components are deemed compliant in accordance with the following exemptions:

- 6c - Copper alloy containing up to 4% lead by weight
- 7a - LEAD in high melting temperature type solders (lead-based alloys containing 85% by weight or more lead)
- 7c1 – Electrical and electronic components containing LEAD in a glass or ceramic other than dielectric ceramic in capacitors (piezoelectric devices) or in a glass or ceramic matrix compound
- 7c2 – LEAD in dielectric ceramic in capacitors for a rated voltage of 125 V AC or 250 V DC or higher
