FOR IMMEDIATE RELEASE

EOS Power Announces New EOS Brand MWLT200 & WLT200 Medical & Commercial Open Frame Power Supplies in 3 x 5 Inch Footprint

Mumbai, India, August 17th, 2010— EOS Power India Private Ltd, the leading seller of ultra miniature, high efficiency power supplies, announced today that it has released its new MWLT200 & WLT200 Series of Open Frame AC/DC power supplies for use in the Global Medical and Commercial Industries. The M (W) LT200 Series of single output products are one of the smallest and most efficient 200 watt power supply packages available in the industry today.

The M (W) LT200 Series features Universal AC inputs from 90v to 264v, measures a mere 3 inches x 5 inches x 1.5 inches, and has a rated efficiency of greater than 88%. It is configured in all popular single output voltages and its flexible design allows for simple modification to alternate voltages as required. Additionally, the M (W) LT200 Series comes with a standard 12v fan output and 5v standby output as standard and can be ordered in Class 1 or Class 2 configurations. The M(W)LT200 Series are produced in the EOS Power Inc , India manufacturing facility which has received numerous Quality and manufacturing awards from noted bodies such as Dun & Bradstreet, Elcina & Frost & Sullivan.

The M (W) LT200 Series are available to order today with initial deliveries scheduled for September 2010. The M (W) LT200 series is a further evolution of the EOS brand of high end power supplies. The EOS Series of internal power supplies and external adapters are available through a network of manufacturing sales representatives and distributors worldwide.
